Wednesday, August 30 & Thursday, August 31, 2017

Luck School Students in Grades 7-12

Two days of awesome, active learning before school starts on Friday, September 1.

Bus transportation is provided; routes and pick-up times will be similar to the school-year schedule.

To sign up, you can call, text or email Ms. Wicklund at judyw@lucksd.k12.wi.us, or 715-566-1704. You can also pick up or drop off a form at the school. Circle your choices, or text them or email them. You can come one or both days. Weather may force changes.

Each activity lasts one morning or one afternoon, unless it's specifically a day-long event. Some events happen several times. We'll try to create a perfect schedule.

Here's what you can sign up for:

1. Job shadowing at St. Croix Regional Medical Center. YOUR REQUEST MUST BE IN TO MS. WICK BY AUGUST 15TH! DON'T DELAY! This was one of the most popular events last year. You can job shadow more than once if you want. You must be 14 to do this.
2. Job shadowing somewhere else—we can try to set up anything, but get your request into Ms. Wick ASAP.
3. Trapshooting at South Fork Shooting Club for both newbies and more experienced shooters. If you've never done this before, members there along with a few Luck staff members will teach you. If you've shot before, it's a great time to get in some free shooting time. This fast-rising sport develops your eye-hand coordination. It is tentatively set for Wednesday morning.
4. Escape room – You will have 90 minutes to figure out how to get out of the room we've set up, by finding necessary escape tools and solving clues.
5. Escape trail in the school forest- like an escape room, but you're moving through the school forest.

6. Build and launch fuel-powered rockets with Mr. Roush – playing with glue and fire!
7. River Trip with Mr. Miller and Mr. Clemins – you'll spend a day fly-fishing with these two.
8. Band Band Band – Explore musical options with whatever Ms. Paucek invents for this session.
9. Tammi's Wildlife – Tour Tammi's wildlife rehabilitation and help out with the animals
10. Interstate Vet – Watch pet surgeries and appointments. Surgeries are on Wednesdays; that would be the best day.
11. Whitetail Habitat in the school forest – Work with Mr. Bartylla and Mr. Jensen developing whitetail habitat in the school forest.
12. St Croix Dam and Fish Hatchery Tour – exactly what it sounds like
13. Culinaria with Mrs. Gavinski – Cupcake Wars (this will last two sessions), and a return of homemade brats. (cylindrical meat products, not misbehaving children)
14. Fashion design: T-shirts revamps- Make cutouts, fringes, bleach tie-dye (both trends this fall, according to our alumni fashion designer students). You can bring your own, or choose from our vast pile of almost-new t-shirts, and some other items, we picked up at thrift stores. You can even make other things out of t-shirts, like skirts or totebags. Look up some ideas on Pinterest and see the possibilities. Not just for females—men's t-shirts, too.
15. College visit with Mrs. Hunter – UW-Eau Claire on Wednesday; still time to set one up for Thursday.
16. Bike ride featuring science and history elements with Mr. Dunlap and Mr. Humpal
17. Real estate- Look at houses for sale and learn about real estate
18. "Coffeehouse" intellectual conversation with Mr. Wick/Mr. Clemins/Mr. Dunlap/others who wander in, and a bucket of biscotti. Discuss philosophy, current events, literature, art... (Coffeehouses in their early years were often monitored or banned by governments and kings because this is where rebellions began. In London, coffeehouses were synonymous with community ed—they were the site for debates, presentations, lessons for adults.)
19. Kayaking – just kayaking. Just you and the kayak and the water. And a staff member.
20. Intro to Boxing – with Mr. Clemins and his coach at the Forest Lake Gym. It will not be a "ring" event; you won't actually be boxing in a ring. You'll work out with heavy bags and learn some boxing basics. Boxing is an excellent cardio and resistance exercise.
21. Search and rescue – this would involve the local K9 search and rescue, as well as other local resources. This event is still being developed.
22. Solve a murder mystery – you and others as a group have to find the clues, ask the right questions, figure out the solution in a variety of ways.
23. Build a Banjo – with Mr. Wick
24. Here's where you have an idea for something you want to do and we see if we can find a way for that to happen. No promises, but we'll try.
