Luck Cardinals Summer Program 2024

The Luck School District has created a variety of classes that include project-based academic enrichment and activities that are designed to instill a love of learning and discovery as students explore their interests.

Summer School: 4 independent weeks - 2 sessions each day unless otherwise noted in the flyer. Summer school will run Monday-Thursday from 8:00AM to 1:00PM. Dates include June 3-6, June 10-13, June 17-20, and June 24-27.

Swimming Lessons: Held the first two weeks of summer school (Monday-Thursday) from 1:00-3:30PM. Dates include June 3-6 and June 10-13.

Athletic Camps: Held the second two weeks of summer school (Monday-Thursday) from 1:00-3:30PM. Dates include June 17-20 and June 24-27. There will be a variety of camps for different sports. More information to come.

Field Trips: Held every Friday in June!

For students who DO NOT enroll in Swimming Lessons and/or Athletic Camps, there will be alternate activities offered at the school until 3:30PM.

Please fill out the registration form with all necessary information. Have your child rank the electives they want included in their daily summer school schedule. There are a limited number of spaces, so the electives will be granted on a first come first served basis. Please make sure you specify all of the sessions your child will be attending for summer school. If you need assistance with the online form, please contact the District Office at 715-472-2152.

The Luck School District is a participant in the summer food service program. As a result, the district will provide FREE breakfast and lunch to all children 18 and under in conjunction with each session of summer school.

Classes may fill quickly so register early for the best chance of getting the classes you want!

Sign up online using the following link:
<https://bit.ly/Luck2024>

Transportation

Transportation will be provided during the Summer Program for all students in need of transportation. Pick up and drop off will be door-to-door, just like the regular school year. Buses will leave the school at 3:30PM in the afternoon. If your student does not enroll in Swimming Lessons and/or Athletic Camps AND they do not want to participate in the alternate activities held at the school, they will need to be picked up from the school at 1:00PM. Please include your transportation preferences on the program registration form.

For transportation questions, please call Mr. Josh Bazey @ 715-472-2152 ext. 101.

SWIMMING LESSONS

All classes are from the Learn To Swim Program by the American Red Cross taught by certified Water Safety Instructors. Classes held at Unity School District. Use the online Summer Program form to register.

Pre-Level 1 | Age 4-5

Classes take place in the kiddie pool with progression to the big pool. This class is taught without a parent present (parents are welcome to watch class from the observation room). Swimmers will work on entering and exiting the water safely and independently, submerging mouth and blowing bubbles, front and back glides with assistance and combined arm and leg actions on the front and back with assistance.

Level 1 - Introduction to Water Skills | Age 5 and Up

Basic swim skills and safety skills will be performed with assistance in the big pool. Swimmers will work on bobbing, retrieving submerged objects, front and back glides, combined, alternating and simultaneous arm and leg actions on the front and back all with assistance.

Level 2 - Fundamental Aquatic Skills | Age 6 and Up

Basic swim skills and safety skills will be performed without assistance in the big pool. Swimmers will work on submerging, front and back glides, combined, alternating and simultaneous arm and leg actions on the front and back without assistance. Swimmers must be able to perform the exit skill of swimming on their front for 5 body lengths, rolling to their back, floating for 15 seconds, rolling to their front and then continue swimming for 5 body lengths in order to move on to Level 3.

Level 3 - Stroke Development | Age 7 and Up and/or Successful Completion of Level 2

Swimmers will focus on the flutter, scissor, breaststroke and dolphin kicks. They will also focus on increasing their distances of the Front Crawl, Elementary Backstroke and Back Crawl. Diving will also be introduced.

Levels 4 - Stroke Improvement | Successful Completion of Level 3

Swimmers should already be able to: swim front and back crawl 25 yards. Swimmers will work on: rotary breathing, freestyle, backstroke, elementary backstroke, scissors kick and sidestroke, whip kick and breaststroke, intro to turning at wall, treading water with modified scissors, and diving in kneeling position.

Level 5 - Stroke Refinement | Successful Completion of Level 4

Swimmers should already be able to: swim freestyle, breaststroke and backstroke 25 yards, scissors kick, whip kick, treading water, and dive. Swimmers will work on: alternate breathing, stride jump, refinement of: freestyle, backstroke, elementary backstroke, sidestroke, breaststroke, dolphin kick and butterfly, open turn on front and back, feet-first surface dive, and treading water.

Level 6 - Swimming & Skill Proficiency | Successful Completion of Level 5

Swimmers should already be able to: swim front and back crawl 50 yds, elementary backstroke 25 yards, breaststroke 25 yards, butterfly 25 yards, sidestroke 10 yards, tread water for 3 minutes, and dive. Swimmers will work on: All six strokes, front and back crawl flip turn, breaststroke turn, breaststroke speed turn and pullout, butterfly turn, sidestroke turn, pike and tuck surface dive, pike and tuck dive from board, tread water for five minutes, and basic water rescue.

Friday Field Trips!

Registration and payment are due one week before the scheduled trip for the aquarium, Fawn-Doe-Rosa, and the Children's Museum. Registration and payment for the Children's Theatre is due by Friday, May 3. Students in grades K-5 MUST have an adult accompany them. Use the online Summer Program form to register.

June 7 | Great Lakes Aquarium, Duluth | \$10/Person

Great Lakes Aquarium is a choose-your-own adventure kind of place. Experience two floors of live animal displays, hands-on interactive exhibits, and stunning overlooks of the Duluth-Superior waterfront. Salt and freshwater themes bring the world of water to you! Students are encouraged to reach out and touch, play, relax, splash, and enjoy the exploration! Lunch provided.

Depart School: 8:30AM | Return to School: 3:00PM

June 14 | Children's Theatre Company, Minneapolis | \$10/Person

"A Year with Frog and Toad". Meet Frog and Toad, best friends who embark upon a year's worth of adventures with great merriment, comedic agility, and joyful song-singing. Come enjoy the only show from Minnesota ever to be nominated for three Tony Awards, including Best Musical! Best enjoyed by students in grades K-8. Lunch provided.

Depart School: 8:30AM | Return to School: 3:00PM

June 21 | Fawn-Doe-Rosa, St. Croix Falls | \$12/Person

Step into nature at Fawn-Doe-Rosa! Along the wooded path you will meet deer, elk, geese, wolves, foxes, badgers, bobcat and lynx...along with other animals of the forest. Fawn-Doe-Rosa also has a farmyard full of animals! Fee includes admission, a guided tour, and a feed bag for feeding the animals. Lunch provided.

Depart School: 9:30AM | Return to School: 1:30PM

June 28 | Children's Museum of Eau Claire | \$10/Person

The Children's Museum of Eau Claire is a place where learning and play come together in a safe and inclusive environment! The museum is dedicated to providing children with interactive exhibits that foster social and academic growth while ensuring a fun and engaging experience. Best suited for students in grades K-5. Lunch provided.

Depart School: 8:45AM | Return to School: 2:45PM

Summer School

Students Entering Kindergarten

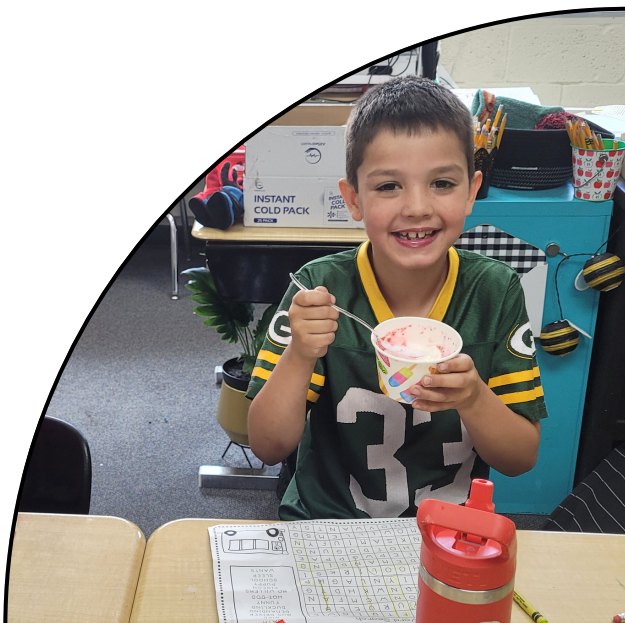

Children entering kindergarten will be in a self-contained classroom for summer school. They will be developing social skills and working/playing together with friends. Students will become familiar with the kindergarten routine and structure to help ensure a successful start in the fall. Through songs, games, art, and stories they will be involved in a new theme each week.

Students Entering 1st Grade

Come and join the fun! During 1st grade summer school, students will spend their days reading books, making art projects, cooking, doing science experiments, and lots of other fun summer activities. Weekly themes include Cooks with Books, Mad Scientist, Ocean Week, and Summer Fun.

Students Entering 2nd Grade

Students entering the 2nd grade will have an incredible opportunity to experience themes/units of study that will integrate reading, writing, math, science, and art. This project based learning will also encompass a hands on approach to learning!

Students Entering 3, 4, & 5 Grades

Cupcake Wars - Have you ever seen those fancy cakes and said, "I want to make those!?" In this class you will learn techniques to make fun cupcakes. Work in groups to create the most creative, colorful, and delicious cupcakes.

Kitchen Magic - Create a variety of quick and easy snacks and meals! Learn to read recipes and use measuring utensils, understand kitchen safety, and see how food changes when heated and combined. This class is sure to be a magical experience!

No Bake Cooking - Are you interested in cooking and baking without using the stove or oven? In this class you will combine ingredients to make some tasty foods using only the refrigerator and the microwave. Enjoy a new snack every day. Students will learn about nutrition, kitchen basics, and proper sanitation while preparing food.

Gardening 101 (Week 1 Only) - Students will assist in the planting and maintenance of the school garden and outdoor learning facility. This class will provide hands-on activities for all aspects of gardening (planting, harvesting, construction of beds, etc.). Students will also learn about all the items that were planted earlier in the growing season.

Spanish Food & Culture - ¡Qué delicioso! In this class, you will learn how to make delicious treats from all over the Spanish-speaking world. Additionally, you will learn about and be immersed in different cultural traditions and practices from various Spanish-speaking countries, including playing games, singing songs, and making crafts.

Crafty Kids - Where's the scissors? Where's the glue? You never know what we may do! Let's craft the week away with a variety of crafts using many different types of supplies. Join us as we fuel that creativity and make projects to keep for yourself or share with family and friends.

Students Entering 3, 4, & 5 Grades (continued)

Math Camp - Let's play with numbers! It will be a week filled with games, practicing different skills, math projects, and math stories. We will be using our imagination, creativity, and problem solving skills to learn about math.

Children's Book Club - Let's dive into some good books! Sharing our love for reading through different types of stories. We will use our imagination and creativity to help make the books come alive. We will have activities that will go along with the stories we read and try to discover some new authors along the way.

Wild for Wildlife - Explore the great outdoors that surround our school. Students will take part in a variety of outdoor activities including fishing, mucking for aquatic insects, wildlife and plant identification, creating wildlife shelters, environmental games, and more.

Wild About Wild Animals - Safari time, design a hat, watch wild animals in action, research, write, then create wild animals with clay.

Exploring Science with Experiments - Students will have the opportunity to bring out their creative side in unusual and fun ways through science projects and experiments that students will be able to enjoy again at home. Students will learn to follow step by step directions and create masterpieces that are for all skill levels.

Let's Go Fishing (All Day) - Students will learn how to set up fishing poles, select the right lures, identify fish, and clean fish. Yes, we will actually fish!

Phy Ed Fanatics - Students will play a variety of games/activities from phy ed class.

Outdoor Games - Students will learn and play games designed to be played outdoors such as bag toss, can jam, tag based games, bocce ball, and more!

Students Entering 3, 4, & 5 Grades (continued)

Golf Galore - Students will try their hand at a variety of "golf based" games including disc golf, ladder golf, golf billiards, and tennis golf challenges.

Flag Football - Students will learn the basics of football and the skills that come with that.

Ultimate Sports - Students will learn the ultimate side of their favorite sport. Students will learn ultimate Frisbee and football, just to name a few, while learning the importance of sportsmanship and being a team player.

Summer Recess - Students will learn traditional recess games including kickball, beanbag toss, and other summertime activities.

Poetry - Are you team groan or team cheer when it comes to poetry? In this class, students with any reaction are welcome! Anyone can dissect poems and have a blast discussing them. Students will interpret poetry by interacting with the words in unique ways instead of the traditional "listen to the teacher, read, then answer comprehension questions" style. This is a chance to imagine the possibilities words hold as we examine a variety of short poems through the lens of summertime daydreamers. Let's take a wild ride through the enigmatic world of poetry styles and writing wizardry!

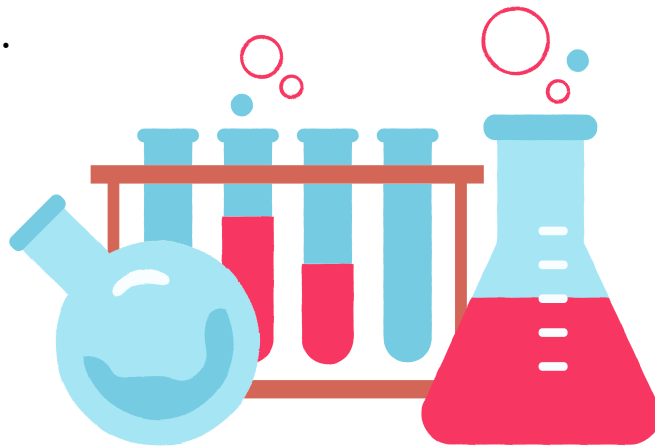

Zombie Outbreak - Have you ever watched a zombie movie and wondered how you'd do if you woke up to a zombie takeover? Here is a chance to play pretend with tactical co-ops and logic based strategies as you envision our very own school as your safe zone when zombies attack. In this class, students engage in hands-on activities while using their imaginations to pretend a zombie outbreak is causing chaos in the village of Luck. This involves comic book strip writing, podcast usage, journaling, and various artistic elements. Students have the chance to test their acting skills in addition to fine-tuning their logical thinking. *This will not include super gross details or scary themes!

Students Entering 3, 4, & 5 Grades (continued)

Creative Writing - Whether writing assignments are your favorite or they're your worst nightmare, I guarantee you'll enjoy working on short story skills with total creative freedom! Learn quick tips and tricks to elevate your writing, putting them to use right away and workshopping with others without the pressure of grades. In this class, students will work on creative writing skills that develop across grade levels like building blocks, giving them a chance to get ahead or catch up! By experimenting with different storytelling techniques, students will not only enhance their writing abilities but also gain confidence in their creative expression. Specific topics will be guided based on enrolled students' input.

Stay Curious! - Does that phrase sound familiar? If you heard Mystery Doug saying those words, then you probably can guess what this class is all about... Let's ask ALL of the questions and stay curious this summer! Students enjoy standalone science experiments and mini-lessons to examine the facts behind the magic of the world around us. Although some content may connect to our Mystery Science curriculum, this will not be the typical lessons, avoiding any chance of repeated activities/spoiling future lessons students might have later on!

Microscopes for Newbies (*limit of 7 students*) - Have you ever wondered what dog hair, fish eggs, human scabs, and butterfly wings have in common? Probably not, but here's your chance! In this class, students dive into the magical realm of microscopes to look at everyday materials and find connections they've never considered before! Students will learn the basic parts and functions of microscopes through actual usage as they take on the role of scientists.

Students Entering 3, 4, & 5 Grades (continued)

Become a Novelist - Ready to dive into the magical world of creating your own masterpiece, but worried you'll get lost along the way? If you've ever started to write the next great novel, then given up after 10 pages, you're not alone- NaNoWriMo exists for a reason! This class is a mini version of that. In this class, students will learn how to take the daunting task of writing a full-length novel and break down the steps in a more manageable way. Students will craft a plan to make their dream book a reality. Students with detailed ideas for novels, students with a bunch of half-finished stories, and students just beginning to like the sound of becoming a novelist are all welcome!

Junior Justices: A Mock Trial Adventure - Dive into the world of courtroom drama! This interactive summer class invites upper elementary students to step into the roles of lawyers, witnesses, and jurors, as they explore the ins and outs of the judicial system through a fun and engaging mock trial. This class combines critical thinking, public speaking, and teamwork, all within the thrilling context of solving and arguing a case from start to finish.

Creative Chronicles: Mixed Media Journaling - Unleash your inner artist and storyteller! This class is designed for students eager to explore the vibrant world of expressive journaling. Aimed at creative spirits, this course invites young learners to dive into the art of journaling using a variety of materials and techniques. From paints and collage to digital elements and photography, students will discover new ways to capture their thoughts, dreams, and daily adventures.

Students Entering 6, 7, & 8 Grades

Cupcake Wars - Have you ever seen those fancy cakes and said "I want to make those!"? In this class you will learn techniques to make fun cupcakes. Work in groups to create the most creative, colorful, and delicious cupcakes.

No Bake Cooking - Are you interested in cooking and baking without using the stove or oven? In this class you will combine ingredients to make some tasty foods using only the refrigerator and the microwave. Enjoy a new snack every day. Students will learn about nutrition, kitchen basics, and proper sanitation while preparing food.

Crazy for Cookies - Do you like cookies? If so, this class is for you! Each day, prepare a different type of cookie. We will learn about drop, molded, roller, bar, and refrigerator cookies. You will also create a cookbook with all your favorite recipes!

Master Chef - Do you like to cook? Or would you like to learn how to cook better? This class will teach you how to prepare a wide variety of different foods. Everything from homemade mac and cheese to mashed potatoes, meatloaf, and so much more. Each student will receive a cookbook filled with lots of recipes to try at home.

Spanish Food & Culture - ¡Qué delicioso! In this class, you will learn how to make delicious treats from all over the Spanish-speaking world. Additionally, you will learn about and be immersed in different cultural traditions and practices from various Spanish-speaking countries, including playing games, singing songs, and making crafts.

Students Entering 6, 7, 8 Grades (continued)

Crafty Kids - Where's the scissors? Where's the glue? You never know what we may do! Let's craft the week away with a variety of crafts using many different types of supplies. Join us as we fuel that creativity and make projects to keep for yourself or share with family and friends!

Learning to Sew - In this class you will learn how to sew and if you know how to sew you can improve your sewing skills. All sewing levels are welcome to join this class. Students will be required to bring some of the sewing supplies. Sewing machines and sewing tools will be provided, as well as some fabric for projects.

Kindness Projects/Community Service - "In a world where you can be anything, be kind." This class is all about kindness and service. We will find ways to show our community how awesome our students are. We will do acts of kindness for others including visiting the nursing home, cleaning up parks, and other activities and projects that make a difference for others. Students can earn community service hours in this class.

Let's Go Fishing (All Day) - Students will learn how to set up fishing poles, select the right lures, identify fish, and clean fish. Yes, we will actually fish!

Gardening 101 (Week 1 Only) - Students will assist in the planting and maintenance of the school garden and outdoor learning facility. This class will provide hands-on activities for all aspects of gardening (planting, harvesting, construction of beds, etc.). Students will also learn about all the items that were planted earlier in the growing season.

Outdoor Adventures (Week 4 Only, All Day) - In this course, you will get an introduction to bicycling and experience riding trails at exciting locations. Enjoy the outdoors with tubing, fishing/swimming, etc. Also learn the basics of kayaking and experience kayaking at different locations.

Students Entering 6, 7, 8 Grades (continued)

Flag Football - Students will learn the basics of football and the skills that come with that.

Ultimate Sports - Students will learn the ultimate side of their favorite sport. Students will learn ultimate Frisbee and football, just to name a few, while learning the importance of sportsmanship and being a team player.

Summer Recess - Students will learn traditional recess games including kickball, beanbag toss, and other summertime activities.

Golf Galore - Students will try their hand at a variety of "golf based" games including disc golf, ladder golf, golf billiards, and tennis golf challenges.

Students Entering 9-12 Grades

#30 HS Credit Recovery - Gain those credits needed for graduation. This class will help you get back on track with your credit requirements for graduation.
